

SOLAR FREEZERS

ENERGY EFFICIENT SOLAR FREEZERS

FR 240.4 I

Freezer (F), Refrigerator (R)

- 12 V - 24 V DC operating voltage featuring shut-off at low voltage
- Eco-friendly cooling agent (R-134a)
- Adjustable interior temperature
- Very low energy requirement
- Highly-efficient cooling
- Low Maintenance
- Double gasket to keep long cooling
- Easy to installation

FEATURES

- Adjustable interior temperature (-18 to +6 °C)
- Very low energy requirement - 40W (typical), 100W(max)
- Low maintenance
- Double gasket for longer cooling
- 12/24V DC operating voltage featuring shut off at low voltage
- Easy installation
- Single solar panel and battery can provide sufficient power.
- Charging possible through solar panels and conventional AC supply.

TECHNICAL SPECIFICATIONS

| | |
|-----------------------|---------------------|
| Capacity | 240.4 litres |
| Temperature Range | -18 to 6 °C |
| Power input (typ/max) | 40 - 100W |
| Operating voltage | 12 - 24V DC |
| Refrigerant | R-134a |
| Door type | Top opening |
| Dimensions | 684 X 849 X 1144 mm |
| Weight | 70 kg |
| Brand | Phocos AG, Germany |
